

# AL & VANESSA

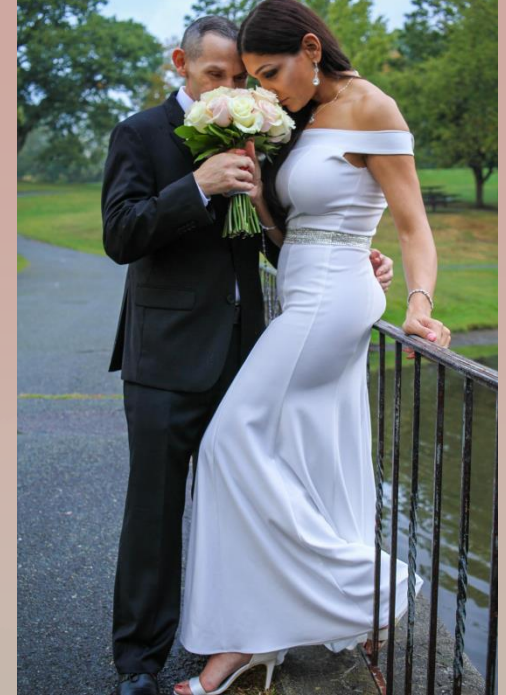

**Our Dearest Birth mother,**

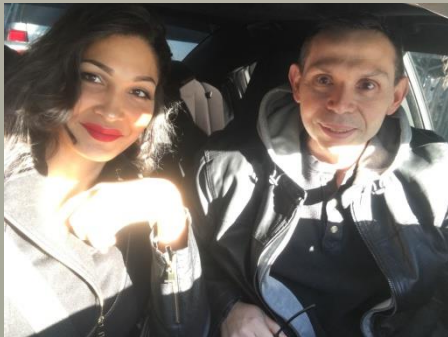

**We are AL and Vanessa and we want to express our sincerest appreciation should you honor us with the opportunity of raising another bundle of joy. We have been together for five years and are recently married. We have an eighteen year old daughter that is starting college in the fall and now have an empty house and want the joy of being parents to an infant child.**

**We are waiting to be blessed with an addition to our family. Should you choose us we, both promise to raise this little angel in a loving, caring home with family values, and will also teach him or her not to judge and love everybody as equals and treat everyone with the utmost respect and dignity.**

**We met in 2013 and felt an immediate attraction. These last few years that we have spent married to each other has turned into a bond that is unbreakable. We love to travel between Puerto Rico and Florida to spend time with family.**

# VANESSA

I was born in Puerto Rico and later moved to CT where I lived until I met AL. I am a makeup artist with a passion for pageants as well as doing makeup for all types of special occasions. My work has been featured on advertising for numerous shows and on the cover model of a 2017 wedding map brochure. My flexible work schedule allows me the opportunity to stay home to care for our child, and experience that bond that only a mother and child can have from infancy to adulthood!

My hobbies include: cooking, traveling, exercise, dancing, make up, photography. Interior design and gardening. I especially love Karaoke and think I'm the best at it; unfortunately, my family and friends disagree with me on this. But this won't stop me for singing lullabies to the baby.

# AL

I was born in Cuba but have lived in the US most of my life. I joined the army after high school and have been in law enforcement over 20 years. What started out as a career patrolling the streets has turned into a career as a Captain.

Besides traveling all over the world with my beautiful wife, I enjoy going to the theatre, dining out, reading and visiting my daughter in college.

**LOVE**

We enjoy living a healthy lifestyle that consists of trying new and different restaurants, as well as a night home with Vanessa cooking for the family. When we travel, one of our favorite things to do is rent bicycles and go out exploring.

When we aren't watching movies at home, we can spend the day in the backyard tending to our garden and end it with cooking on the grill.

Most of the time we live in Boston in a family friendly neighborhood. It's filled with the sounds of children playing and parents walking with their families...

We also own a chalet in the mountains of New Hampshire. We go there to enjoy nature, and the many activities there such as hiking, camping, canoeing; as well as just listening to the brook that runs behind the house. We cannot wait to hear the sounds of laughter from our child in our homes.

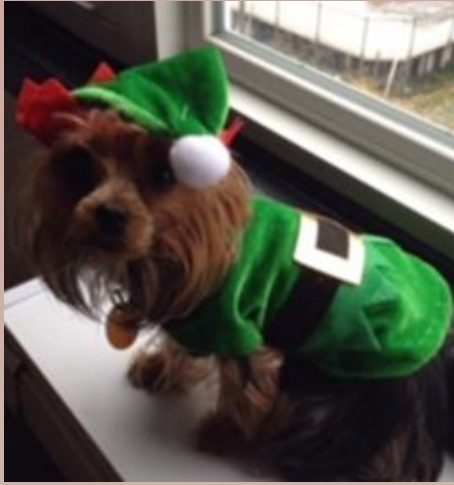

# FAMILY

**With family all over the country, we travel several times a year to visit and stay close and love spending time with all the nieces and nephews. With some immediate family living local, we see them daily and can't wait to bless them with more children to spoil!**

**Our two Yorkshire terriers, Dulce and Delilah, can not wait to have a home filled with the love and laughter of little children.**

*“We believe that we are soulmates and want to raise a child in a loving and caring environment that we are able to provide”*

**~ AL & Vanessa**
