

# Jake & Sole

Dear Birthmother,

Thank you for taking the time to read about our family and getting to know us better. We know that you are making one of the toughest decisions of your life, and we want you to know that we understand and we want to be a part of this journey with you. We hope that getting to know about our family and the adventures we take will help make this a comfortable decision for you.

We are a bilingual family that is interested in raising a child in a multicultural setting. Sole is originally from Ecuador and Jake is from Vermont. We adopted our son, Samuel, 3 years ago, and we hope you will consider helping us provide a sibling for him to play with.

We offer a warm and comforting home with two loving parents, a 3-year-old anxiously awaiting a little sibling, and a little dog named Luna . We are a loving family living in beautiful Massachusetts with wonderful schools and opportunities. We have so much love to share, and we hope we can share this love with you and your child.

We met 14 years ago when Sole came to the United States to take a summer class at a college in Vermont. At the end of the summer class, Jake made the decision to go back to Ecuador with Sole, where he worked and lived for two years as an English teacher... We have been together ever since!

# JAKE

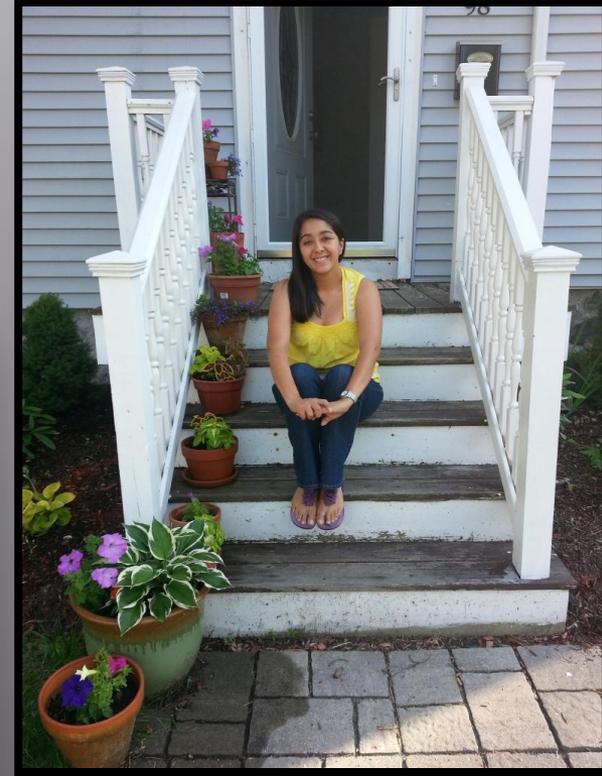

I was born and raised in Vermont and lived there until my late twenties when I met Sole. I have many fond memories of playing ice hockey, skiing in the winter, and rollerblading all summer. I am a passionate reader, and because of my passion for history, I made it my major in college. After college, I moved to Ecuador for two years before returning to the United States to go to Law School. I am now a lawyer in Boston working in immigration and family law.

I love working with people of all cultural backgrounds & so happy that I have been blessed with the chance to travel the world, especially with Sole & Sammy, and have lots of experiences to share with another child. I love to cook and Sole loves to eat my food (the perfect couple!). One of my most famous dishes is cinnamon rolls, which are fantastic and fill the house with cinnamon and sugar scents.

# Sole

I was born in Ecuador and come from a big family that loves to spend time together and enjoy outdoor activities. Working as an elementary school teacher for longer than ten years, I really love working with young students because they energize & inspire me. My mom, sisters, and lots of young nieces and nephews still live in Ecuador. I enjoy visiting them over the summer, spending time with my family, and enjoying the beauty of Ecuador.

**Sammy** is excited to help a little brother or sister with everything, and to be a best friend to our new addition. He is good with babies and other children, and we spend a lot of time with friends and family. He enjoys dancing to all kinds of music and loves telling stories from his imagination, which he constantly lets flow. Sammy is bilingual. He loves spending time outdoors playing with his friends or collecting leaves and sticks. He loves to dance and loves playing. Sammy has a wild imagination which he constantly lets flow. He loves animals and cars, and helping people

**FAMILY**

We try to travel as much as we can, and we would love to be able to bring another child along to experience all the things we have been lucky enough to experience in our lives.

Though it might get cold and snowy here in the Boston area, we really love all the seasons of the year. During the winter we like to go for hikes as much as we like to stay home and bake.

# Our Home

We recently moved into a beautiful new home in a rural suburb of Boston, Massachusetts known for its high-level schools. We live in an area with lots of children, and the elementary school is within walking distance!

Our new town was picked because it is beautiful. It is an incredibly safe town, and Sam is already so happy to be living here. Our home is a warm and peaceful place, full of love.

# Thank you!

We can provide your child with a loving, caring, and safe home and he or she will grow up surrounded by family and experience some of the most exciting adventures that life can offer.

Very Sincerely,  
Jake & Sole
