KRISTINA & RYAN

Thank you for taking the opportunity to learn about us and read our story. We are thrilled for the potential opportunity to be selected as adoptive parents. We have been married for six years and homeowners for five and are ready to take the next step towards growing our family. We appreciate you taking the time to consider us as parents and support your decision.

Becoming parents has been a dream of ours for several years. As Ryan and I both have adopted realatives we knew this was a path we are passionate in following.

As we partake on our adoption journey, our hope and love for our future child continues to grow. We are simultaneously excited and eager to watch our journey unfold in this new chapter of our lives.

We are receptive to following your wishes and respect your comfort level throughout this process.

Meet Kristina

I am a Scientist and Clinical Trial Manager working for a large pharmaceutical company. I work in oncology and manage clinical trials in the United States. I love my career; most importantly I am thankful for my family, Ryan and our future.

Growing up, friends and family found me to be outspoken, independant, and humorous. I enjoy lazy Sunday's and relaxing time with Ryan.

Meet Ryan

I am the Lead Scientist working in drug development for the same pharmaceutical company as Kristina, which brings us to Boston!

Friends and family would describe me as comedic, passionate towards my interests, and an avid conversationalist. I have a PhD in Biochemistry and truly enjoy my professional career. I enjoy listening to and playing music. I have played jazz and rock guitar for roughly 20 years. I can't live without music, science and baseball.

Apoutus

We met in a research lab in graduate school. We were immediately drawn to one another's calming presence and quick witted humor. We started dating in 2013 and married in July of 2017 surrounded by the love of our family and friends.

Travel, food, and family are our three favorite things! Together, we have traveled to many different states and countries. Every trip, we research the best cuisines in town and go to all the local spots. Visiting museums, zoos, exhibits, etc. are a large part of our travels.

We also love staying home and having family and friends over!

A FEW OF OUR FAVORITE THINGS

Kristina

Easily, pasta! Sunday dinner growing up was my favorite

FOOD

Ryan

Chicken parmigiana, Italian food is a comfort in our home

Disney's The Little Mermaid (original)

MOVE

Jaws, such a classic

I spend my free time volunteering at the local animal shelter, walking the dogs

HOBBY

My favorite hobby is playing both Rock and Jazz guitar

I cannot live without my dog, coffee, and a good peanut butter cookie CAN'T LIVE WITHOUT

I cannot live without a good book, music, and pizza

HOLLY

Holly is our six year old Dalmatian Hound rescue dog. We adopted Holly from a rescue organization in Florida. Upon meeting Holly, she was malnourished and sick. After treats, vet visits, snuggles, and lots of love, Holly began feeling better and acclimated to her home. She loves long walks around our neighborhood and lots of yummy treats. Holly is our absolute love! She loves kids through her gentle licks and calm nature.

HOME SWEET HOME

We recently relocated to the suburbs of Boston, MA., a place we quickly fell in love with!

Boston offers us an exciting lifestyle, filled with museums, art, parks, and entertainment.

Something we are eager to be apart of is the excellent school system!

Our house will become a home once we welcome our child into our lives.

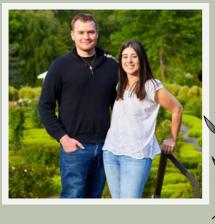

Lawiy Lawijina: I am the oldest of three daughters, with

I am the oldest of three daughters, with two younger sisters, Gina and Jo-Marie. I am extremely close with my parents, who have been married for over 30 years!

Being an only child, I was particularly close with my cousins, feeling like siblings. We often had family gatherings as well as family vacations.

Ryan and I were blessed to have incredible grandparents and cherish those memories, actively incorporating their teachings in our daily lives.

Our child will be the first grandchild on both sides of our families!

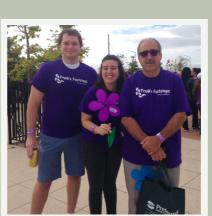

Kristina through Ryan's eyes

Kristina is a strong, caring and extremely kind-hearted woman. She often puts others needs ahead of her own, whether it be for family, friends or pets. She is keen on self care and evaluation, in terms of both physical and mental health. She enjoys cooking healthy meals, going on long walks and traveling. Krisina would be the most loving and compassionate mother I have ever known, if given the opportunity.

Ryan through Kristina's eyes

Ryan is a loving, caring and brilliant person. Ryan loves cooking, reading, and playing music as he has played guitar for 20 years. Ryan would be an amazing father through his patient and compassionate nature. Ryan would teach our future child all there is to know about science, music, and history. He would also teach them how to make a wonderful Sunday Dinner meal!

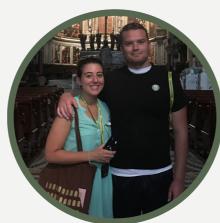

WE PROMISE TO

We promise to love our future child unconditionally, and support them in every aspect of their life. We promise to fill their life with laughter, love, and joy. We promise to teach our future child kind morals, compassion, and a strong identity. We embrace the fact that this is a lifelong commitment and will give our 100% effort towards raising our child in the best way possible for the rest of our lives. We plan to respect your wishes in terms of biological family information and disclosure.

DEAR ille one,

We can not wait to meet you! We love you so much already and have been praying for you for several years.

We hope to provide you with a life filled with love, guidance, and overwhelming happiness. We can't wait to grow alongside you in this journey of life.

De love you!

LOVE, KRISTINA & RYAN
