
DONNY + ROBERT

DEAR BIRTH MOTHER,

Thank you for taking the time to learn about our lives together and our dreams for the future. We appreciate the difficult decision you are making, and we want you to know that if you choose us to parent your child, they will enjoy a life full of love, support, and fun.

OUR FAMILY

Our son, who was also adopted, is almost four years old. He is a bright, energetic boy who loves to learn and play all day. He is ready and excited to be a big brother!

Both of us have siblings and believe it to be beneficial that our children have a sibling to share the experience of growing up and to have one another for support.

Our families have championed us throughout our relationship and are so excited about us adding another member to the family!

OUR DOG,
CHEEZY!

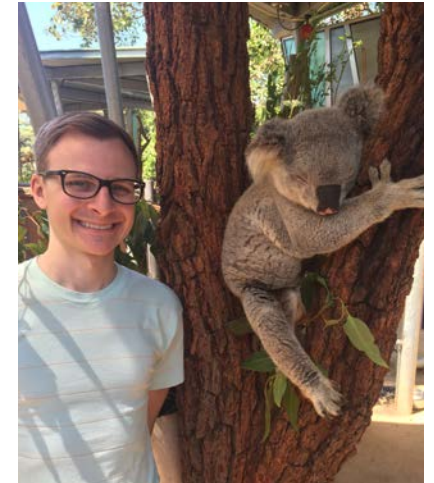

ROBERT

Being a father feels exactly what I was meant to do. I have loved being able to teach and guide my son through his childhood and look forward to helping both of my children lead happy, meaningful lives.

I thoroughly enjoy being outdoors. I spend time gardening in our yard and appreciate our many family camping trips.

I work as a pharmacist, where I can spend time every day helping my patients to live healthier, better lives. I like how my position and company allow for a lot of flexibility in scheduling, so I can be available for my family.

DONNY

First and foremost, I am a loving husband and father. These roles I am grateful for.

These last few years as a father have been my happiest, and I am looking forward to this happiness, and the love that comes with it, growing with an additional child to care for, nurture, and support.

I enjoy spending time outdoors, especially walking/biking/hiking and performing yard work; cooking for the family; and fixing/building things around the house.

I work as an environmental planner specializing in sustainability and resilience. I take satisfaction in my work, particularly in how it helps protect and enhance the quality of life of others, as well as the natural world.

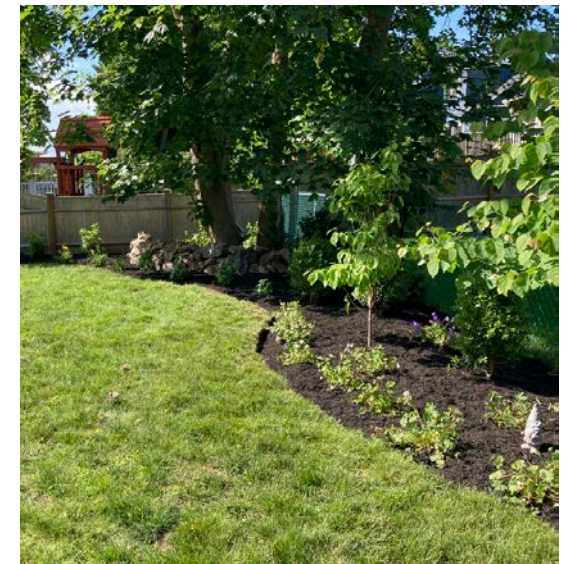

OUR HOME

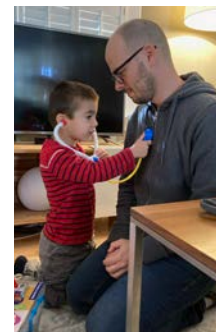

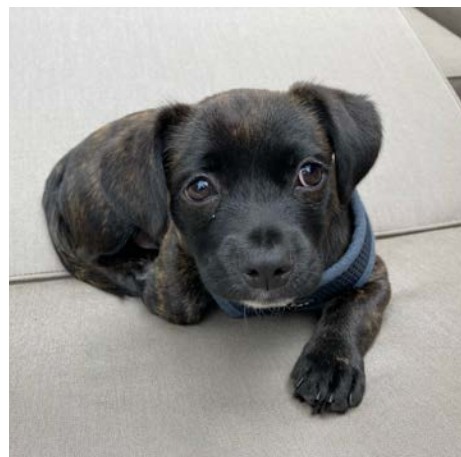

As they say, our home is our castle. We spend much time making it the ideal place to raise a family, share memories with friends and our larger family, and – eventually – grow old in. It is a place of love.

We live in a suburb of Boston, Massachusetts. Our town has great schools, lots of open and recreational space, and strong community spirit/stewardship.

We love being so close to a major city and enjoy its vibrancy, culture, and diversity. At the same time, we are very close to farms and vast natural habitats. The best of many worlds!

We also enjoy taking advantage of all that New England has to offer, including camping trips in Maine and Vermont, and summer trips to Cape Cod.

THANK YOU

As parents, we will forever give unconditional love and acceptance to our children. We will support them in facing life's challenges and will be there for them with smiles and hugs. We will instill the values by which we live, including respect and kindness for all, sense of honesty and responsibility, and the importance of family and community.

We hope you will consider us.

- Robert + Donny
